

Using all approved ADRs and architecture documents:

Generate Sprint 0 Technical Design Package.

Do not generate application code.

Produce:

1. Domain Model Design
2. Ingredient
3. Food
4. Product
5. Evidence
6. Source
7. GlycemicProfile
8. Repository Interface Design
9. Food Intelligence Engine Interface Design
10. GI Engine Design
11. GL Engine Design
12. Confidence Engine Design
13. Explainability Engine Design
14. Source Trust Score Design
15. Firestore Document Design
16. Unit Testing Strategy
17. Sequence Diagrams
18. Architecture Diagrams
19. Sprint 0 Folder Structure

Provide rationale and trade-offs.

Optimize for:

- Cost
- Security
- Simplicity
- Vendor Neutrality

Do not generate implementation code.
